Chauvin District

U.F.A. Picnic

The Chauvin District U.F.A. Association held their first annual picnic, Wednesday July 14th. The day was extremely hot, but a good time was spent by all present. A full program of athletic events was staged and below follows the list of winners:—

Farmers, horses 1250 lbs or over; 1 Hans Witt, 2 Bert Johnston, 3 W. Miller

Free For All: 1 Mrs Tessier, 2 Miss Price

Pony Race: 1 Mrs Tessier, 2 Miss Price

Half mile race: 1. F. LaPlante, 2 W. Cahill

Ladies race: 1 Mrs Tessier, 2 O. St Pierre

Single ladies race: 1 Florence Cahill, 2 Ellen Borregard

Mens 100 yards: 1 W. Godin, 2 W. Blench

Boys, 16 and under: 1 A. Armour, 2 Ed Cahill, 3 W. Borregard

Boys, 12 and under: 1 Albert St-Pierre, 2 Roaul StPierre, 3 Fred Harris

Boys, 8 years and under: 1 George Fahner, 2 Arthur Scott, 3 P. R. Langille

Girls, 16 years and under: 1 Yvonne Nachtergaele, 2 Jeannette StPierre, 3 Lillian Cahill

Girls 12 years and under, 1 Jeannette St Pierre, 2 Yvonne Nachtergaele, 3 Lillian Cahill

Girls, 8 years and under: 1 Fredette StJean, 2 Elsie Goede, 3 Lucille Nachtergaele,

Shoe race; 1 Edwina Ryall, 2 Raoul StPierre, 3 Lucille Nachtergaele

The first baseball match was between Airlie and Prosperity. Near the end of this game a dispute arose and Prosperity declined to continue, leaving Airlie victors by default

Airlie then played Chauvin and suffered defeat at the hands of the home team.

The raffle for the quilt donated by the members of the Lealholme U.F.A. was won by Theodore Martin

Refreshments were served in the both by U.F.A. and U.F.W.A. workers

A dance was given in the Agricultural hall at night, at which a happy time was spent by all present.

Crop Prospects

Best On Record

We may be pardoned for again referring to the crop conditions. It has become the fashion in this country for every district to proclaim to the world that it has the best crops, sometimes without justification for the statement. But, according to reports, Alberta is today faced by the brightest outlook of all, and according to competent authorities, the crops in the Chauvin district are away ahead of those of many other districts. Wheat commenced heading out nearly two weeks ago, and with favorable weather he harvest will be completed as early as last year, with prospects of the most abundant crop on record.

The Chauvin district has always been known as a big grain producing community. Its rich fertile soil and other resources are becoming known far and wide. This year, however, all records promise to be eclipsed and the district will set a pace for grain production which will be very hard to follow.

Copies of the Chauvin Fair Prize List can now be obtained at Chronicle

Manitou Lake

Council Meeting

The monthly meeting of the council of the above named municipality was held at Marsden on Thursday, July 9th., the reeve and all the councillors being present.

Councillor W. B. F. Williams drew the attention of the council to the fact that the residents of Neilburg and district had no really good road northwards in the direction of Lashburn and asked the council to set aside a sum of money for the purpose of improving the existing road. After some discussion it was moved by Councillor Stewart and carried that a committee of three be formed to examine the road east of sections one and twelve in township 46-26-3, the committee to consist of Councillors Mitchell, Belamy and Williams.

Mr. J. Casey, weed inspector, attended to request that the remuneration of weed inspectors be increased on account of the fact that in order to efficiently carry out the work required of them, it was necessary to employ a team, the present rate of pay, \$5.50 per day, not being considered sufficient in view of the high cost of feed, etc., and after a short discussion it was decided to increase the pay of weed inspectors to \$6.50 per day or 65 cents per hour.

An account for \$75.00 from Mr. W. R. Graham for compensation for land taken for a roadway on section 14-45-27-3 was discussed and the secretary (Continued on inner page)

Fall Rye Solves

The Feed Problem

Solving the feed proposition by the culture of fall rye has been accomplished by Irving Neil. From eight acres seeded last fall Irvine has obtained 32 full loads of the very best of feed. More than that, a very fine second growth is now coming along favored by the best of warm and showery weather.

Stork Shower

To Baby Freeman

A number of ladies responded to the invitations to the Stork Shower given in honor of Baby Freeman by Mrs. L. E. Roy last Thursday afternoon.

The rooms were very appropriately decorated with storks, cradles etc.

When all the guests had arrived, the gifts, which had been arranged in a basket daintily trimmed with pale blue ribbons and flowers, were placed on a table, and Mrs. Freeman assisted by Miss Freeman opened the parcels which contained many dainty and useful little garments.

Mrs. Freeman expressed her thanks and pleasure for the gifts to her small daughter.

A very dainty tea was served by Mrs. Roy assisted by Mrs. P. StPierre and Mrs. Saul who poured tea.

A few musical items brought to a close a very enjoyable social afternoon. Baby Freeman calmly slept, blissfully unconscious of her importance and the many beautiful gifts of which she was the recipient.

Edinglassie U. F. A.

There will be a meeting of farmers of Edinglassie district in A. E. Keiths office, Saturday, July 31st at 2.30 p.m., to complete organization and discuss other important business.

P. H. PERRY, Secretary.

L.D.S. Conference

At Ribstone

The L.D.S. Conference at Ribstone, Friday, Saturday and Sunday, July 16th, 17th and 18th, had an average attendance of 200. Five visiting missionaries were present, four coming from Independence, Missouri, viz. Bishop Benjamin R. McGuire, Bishop Richard Bullard, Elder A. H. Mills, and Elder J. W. Peterson.

The opening session on Friday was devoted more particularly to the Y, P. S. and included religio work, the work of the literary society, etc.

Sunday school work was dealt with during the afternoon session, this being followed by election of officers.

Bishop Bullard gave a stirring sermon at the Friday evening meeting.

Saturday morning and afternoon were devoted to the discussion of the affairs of the church, dealing with the question not only from the local viewpoint, but in its wider provincial and universal sphere

Industrial propositions were dealt with in a discourse by Bishop McGuire in the evening

Sunday was devoted to prayer and praise services, and the administration of the sacraments. Bishop McGuire preaching at 2 o'clock. J. J. Cornish, of Artland at 4 p.m., and Bishop Bullard at 7.30 p.m.

In order to provide accomodation, a tent some 60 by 80 feet had been put up in the grounds adjoining the church

Chauvin W. I. Notes

The C. W. I. are conducting a Grain Campaign asking every farmer to contribute a bag of grain from their next harvest towards the building of a permanent rest room for the accomodation of ladies and children from the country when visiting town, which they have undertaken to erect.

The Womens Institute meeting is postponed until July 21st when a full attendance is requested as arrangements are to be made for the serving of meals an Fair Day.

Ribstone Old Timers

Picnic Is Announced

The Ribstone 13th Annual Old Timers Basket Picnic is dated for Friday July 30th. Mammoth posters will be out in a few days giving full particulars of the program laid out for the eventful day. It is rumoured that nearly \$500.00 in prizes has been provided. A good number of the Old Timers of the Ribstone Athletic Association will be seen on the Base ball diamond and will n doubt be a drawing card and centre of attraction. This year a bigger attendance than ever is expected.

The picnic will be held in the Ribformed and will be as busy as the proverbial bees in making arrangements for field sports.

The Ribstone Athletic Association will play the initial game, on the new diamond which is now under construction, Jack Crittenden is president; Dick Wilde, vice-president and R. W. Nelson Secretary.

With these gentlemen in charge the success of the day is an assured fact.

Chauvin Agricultural

Directors Meeting

The directors of the Chauvin Agricultural Society was held in Mr. A. E. Keith's office, Saturday July 10th. Lt-Col. W. Rodden, president, being in the chair.

Minutes of last meeting were read and on motion of Mr J. Tooth and A. E. Keith were adopted as read

Moved by Mr Kirby and Mr Keith that secretary and Mr Tooth attend the next meeting of the Chauvin District U.F.A. and that the secretary also write the different agricultural associations to see if they would be willing to assume a portion of the guarantee required by the railway for an excursion train to Scott Experimental Farm.

Mr Strachan reported that the secretary of the village council was to send a letter to the agricultural society, re action of the council towards booth. Later Mr Freeman visited meeting and read portion of minutes from council meeting pertaining to booth.

Municipal Grant: Municipal committee reported that nothing had been done but things looked favorable.

Sports committee: Sports committee to arrange program of sports and report at next meeting.

Race track: Moved by J. Tooth, and N. Strachan that we leave matter of (Continued on inner page)

Remarkable Growth

In Fifty-Six Days

Headed out evenly all over the field and giving promise of a heavy yield, the straw being now an average of 42 inches, is the wheat on Edgar Belangers' farm. This grain was sown on May 23rd, and the description given above records the growth in 56 days.

B.C. Liquor Houses

Would Move To Alta

Liquor houses in British Columbia are desirous of entering Alberta and opening warehouses. The attorney general's department has twelve applications that have come to it through the provincial police, all seeking permits to open branch export houses in this province.

The explanation of the effort thus to get a foothold in Alberta is said to be the fact that at the beginning of June a law went into effect in the coast province prohibiting the delivery of liquor from a British Columbia warehouse to a British Columbia resident. The establishment of warehouses in Alberta, therefore, becomes a possible way out of the difficulty, but whether or not the applications will be granted will depend upon the action of Hon. J. R. Boyle on his return from the east.

Brady Sunday School

The Brady suday school recently organized has made a good start in the matter of attendance, there being 42 present the opening day and 39 the following week. Mr K. W. Coe, the superintendent is well supported by some good teachers. Mr Coe and his staff will welcome the attendance of every family in the district—there still being some families unrepresented.

Peace Celebration

Monday July 19th

"A great time" Such was the verdict of those present at the Peace Celebration Sports, staged by members of the Chauvin G. W. V.A. and the Ladies Auxiliary of that organization.

So great was the variation from the usual sports program, that baseball, football and horseracing were thoroughly eclipsed. It being evident to the most casual observer that the folk were fa more interested in such events as the parade and march to the grounds; wrestling and tug-of-war on horseback; mounted potato race; tilting the bucket, etc.

The Chauvin G.W.V.A. paraded at the Memorial Hall at one-thirty in the afternoon. At two o'clock the march to the grounds was started, led by a color party with arms, followed by bearers with the Roll of Honor, veiled with the national colors, and supported by a full muster, under the command of Capt. J. F. Perch, D.S.O., M.C.. The route was via Main St and Second Ave to the grounds, moving in close column order. On the arrival they split into three parties forming a quadrangle in front of the Roll of Honour; these movements being carried out with true military precision, the parade being under the control of S-Sgt-Mjr. K. W. Coe

Captain Hudson, M.L.A., then briefly addressed the assembled crowd of veterans and visitors, referring to the noble part played by the district, and congratulating the local branch if the G.W.V.A. on their enterprize, also the ladies for their work in connection with the preparation of the Roll of Honor.

The Roll of Honor was then unveiled by Major H. V. Strachan, V.C., M.C.

The first item of the sports program—the wrestling on horse back was a keenly contested event.

The veterans being:— Constable Holbaum, A. Tuey, C. Smith and M. Penrose. The civilians; Bert Johnston, Budge Reinhart, Joe Reinhart and L. Smith. The task before these men, who were riding bare back was to wrestle until all their opponents were unhorsed, catch as catch can, members of each team to assist one another when at liberty.. It was difficult for any spectator to watch the whole every detail of the contest. The contest was extremely keen and some splendid horsemanship was displayed. The outstanding feature that came under the notice if the writer was the fine exhibition given by L. Smith who was well mounted and gave good battle against C. Smith and A. Tuey for a long spell, finally getting them both down. Joe Reinhart, civilian, also brought down two men, riding to the finish and bringing victory to the civilians. For the veterans, Con. Holbaum, C. Smith and M. Penrose each brought down a man.

Half-mile race, won by Ed. Keatley

Boys under 14: 1 Wm Borregard, 2 E. Mathieson, 3 Raoul StPierre

Boys, 8 and under: 1 Albert St-Pierre, 2. George Fahner, 3 Lawrence Butler

Girls: 1 Yvonne Nachtergaele 2. Jeannette Auclair, 3 Lillian Cahill

Tug of war on horseback was next thing to be "pulled" off. Four civilians—W. Dundas, L. Smith, F. Reinhart and K. Godin pulling against 4 veterans—C. Ryall, G. Beattie, RaRy Reynolds and Joe Reinhart. The riders, upon bareback horses, were allowed freedom of action, but were out

(Continued on inner page)

CONSTITUTION AND REGULATIONS
of
THE UNITED FARMERS' LIVE STOCK
SHIPPING ASSOCIATION OF CHAUVIN

CONSTITUTION

Article 1. NAME

The name of this organization shall be—The United Farmers Live Stock Shipping Association of Chauvin

Article 2. PLACE

The place of operation shall be in Chauvin and District and all regular and special meetings shall be held in the office of the Association in Chauvin.

Article 3. TIME

The time over which this organization shall extend shall be indefinite.

Article 4. PURPOSE

The purpose of this organization shall be to obtain reasonable prices and to secure the best possible results in the marketing of live-stock, at a central market at Calgary, Edmonton or Winnipeg

Article 5. MEMBERSHIP

Any person making use of the shipping facilities of this association must be a member of the United

Farmers of Alberta, or become a member of this association for a membership fee of \$1.00 per annum.

Article 6. OFFICERS

The officers of this Association shall be a President, a Vice-President, a Secretary-Treasurer, and four Directors, all of whom shall be elected by the members at the annual meeting.

Article 7. MANAGEMENT

This organization shall be managed by a Board of Seven Directors composed of the three officers and four directors above provided for. In case of vacancy caused by resignation or otherwise in the membership of the Board, the same shall be filled by the remaining members of the Board, and the members so chosen shall hold office for the unexpired term or until new members are elected.

The Board if Directors shall elect a Manager to hold office at their pleasure, who shall take general charge of the business of the Association.

WANTADS SELL QUICKLY

Article 8. AMENDMENTS

Amendments to this constitution may be made at any regular meeting by a two-thirds vote when thirty days' notice of the same has been given by announcement to the members in writing.

Article 9. MEETINGS

The regular annual meeting of the Association shall be held on the 2nd Monday in February of each year.

Whenever requested by five or more members in writing, the President shall call a special meeting of the Association. Such meeting shall be called by written notice mailed to each member at his last known address, at least ten days before such meeting. Such written notice shall state the purpose of the special meeting, and, no other business, except that specified in the notice shall be transacted at such meeting.

Article 10. QUORUM

At any regular meeting of the members ten members or more shall constitute a quorum.

At any special meeting of the members ten of the members shall constitute a quorum

A majority of the members of the Board of Directors shall constitute a quorum and may do any business that may properly come before said Board.

Article 11. BY-LAWS

By-laws and rules covering the operation of this Association may be made from time to time in the manner prescribed for the amendment of this constitution.

REGULATIONS FOR SHIPPING
LIVE STOCK

Section 1.

The shipment of stock in this association may be made regardless of membership and the delivery of stock to the manager and the acceptance thereof by him binds the shipper to the rules and by-laws of this association. All who desire to ship stock with the association shall report to the manager the kind of stock, the number of each kind, the approximate weight of each, and when it will be ready to ship. When a sufficient amount of stock has been reported ready for shipment to make one or more full carloads the manager shall order a car and shall notify each party having stock listed when the stock is to be delivered for loading.

Section 2.

The duties of the shipper. The shipper shall be at the yard on the day the shipment is to be made, unless he shall have secured a competent substitute and shall receive all stock and weigh, mark and load the same. He shall accompany shipments to destination and look after same till sold and weighed. He shall furnish a statement to every shipper, showing net weight, price received and expenses of shipment. He shall keep on file in a book kept for that purpose all statements received from the commission firm selling the stock for the association. He shall also keep a record showing the number of cars shipped and the amount of stock in each car. He shall also keep an account of all receipts and disbursements for the association. At the annual meeting he shall furnish a detailed statement of all business done during the year.

The shipper shall receive as compensation for his services the amount of ten cents (10c.) per hundred pounds and no other compensation except that he shall have the right to charge for feed, bedding or materials needed in making the partitions to separate the stock, or any other necessary expense, said amount to be charged against the shipment for which it is incurred.

The secretary-treasurer shall furnish a satisfactory bond, which shall be approved by the board of directors. Said bond shall be for the faithful discharge of his duties.

Section 3.

There shall be deducted on every hundred pounds of stock one quarter of one per cent and the same shall be

placed in the sinking fund, to be used for the paying of any adjustments, or losses that may occur on any stock from the time it comes into the hands of the shipper until final disposition is made.

Any shipper whose stock has been damaged while in the hands of the shipper, shall receive the full amount for the same as though the stock had not been injured, but shall be subject to the same ratio of expense on the shipment; The payment of damage shall be based on a statement made by the commission firm selling the shipment, which statements shall show the amount received for the injured animal and the amount, in their opinion, it would have brought had it not been injured. This statement shall be the final basis of settlement. No damage shall be paid for any animal which was not in a healthy condition when received at the local yards by the shipper.

Section 4.

The board of directors may in their discretion invest surplus funds remaining in the said sinking fund or the funds accumulated through payment of assessments in the purchase of weigh scales or stock yards or improvements to an existing yard or scales.

Section 5.

All stock which must be sold subject to inspection, except such as been injured while in a healthy condition and in charge of the shipper, and all diseased animals shall be received at the owner's risk, and he shall receive such payment therefor as is received by the commission firm, less all expense figured pro ratio on the shipment.

Section 6.

The shipper shall appoint as many substitutes as he may need for the different shipping points to act as his assistants. The shipper shall be responsible for all the work his substitutes do for him, in behalf of the association. The directors shall have the right to order the shipper of the association to change his substitutes at any time they see fit to do so.

Section 7.

Shipments shall be received by said association from non-members of the association, with the understanding that such shippers are to pay two cents extra per hundred to the protection fund, which is to be divided among members of the association at the annual meeting, or used to purchase stock, scales or pay for improvements of local owned stockyards. Any member shipping outside the association without a permit from the manager will lose all rights in said association until he renews his membership in the association.

Section 8.

Should any member agree to ship his live stock, and list the same with the association and thereafter fail to deliver it for shipment, and should such failure of such member to ship as agreed cause a loss to the association through the association being obliged to pay the minimum freight on a car notwithstanding the car is not loaded to the minimum, then and in that event such member shall be liable for the excess sum so paid as freight by the association, and the association agrees to accept the payment of such sum as liquidated damages for such breach of contract.

Section 9.

Any dispute over the sale of any live stock between the commission firm and the association, or one of the members of the association, must be settled by the association for its members, the association to act in the capacity of the shipper's agent.

All cheques and statements will be made out individually by the commission firm and sent as requested by each shipper.

Manitou Lake Council Meeting

(Continued from front page)

instructed to write Mr. Graham stating that the account would be settled after the survey of the road had been completed. An account for \$20.00 for filling in the approaches to a culvert with manure, etc., was finally passed at \$10.00. Councillor Mitchell reported that he had seen the road allowance between sections 28 and 29-45-27-3 proposed to be fenced in by E. J. Natress and it was resolved that this application be granted.

It was resolved to apply for a survey of a road diversion on the north half of 16-45-27-3.

H. D. Swarbrick, the secretary, having tendered his resignation as from August 22nd., steps were taken towards the appointment of a new secretary-treasurer, and the date of the next meeting of the council was set for Friday, July 30th., in order that any applications received might be considered and the position filled before the above mentioned date.

Re compensation for roadway taken from the S.E. of 26-46-25-3 it was resolved to award compensation at the rate of \$10.00 per acre, the figure asked by the Hudson's Bay company, owners of the quarter section. Re compensation for roadway taken from the east half of 23-46-25-3, the secretary was instructed to write the owners stating that the council considered the price asked, viz.: \$50.00 per acre, as preposterous, as the proposed road actually increased the value of the land and at the present time part of this land was of no value on account of lack of road.

The reply of the department of municipal affairs re the taxation of store and bank buildings not within the limits of a village or hamlet being satisfactory, the assessor was instructed to assess the owners of such buildings at 60 per cent. of the valuation of same.

Re south half of section 7-47-24-3 the secretary having ascertained that this half section was the property of the C.P.R., it was resolved that the assessment on same be at the rate of \$10.00 per acre.

With reference to the purchase of barb wire for the use of poundkeepers it was resolved to purchase 13 rolls if this wire to be supplied to those poundkeepers requiring same, on the conditions decided at last council meeting. Mr. S. K. Carter, Artland, having written asking whether the council considered a lake to be a legal fence, the secretary was instructed to reply stating that the council considered the lake in question to be a satisfactory boundary.

The question of the best method of dealing with the road through the sandhills to Artland came up for discussion and it was resolved that Councillor G. A. Lawson be allowed to spend up to \$300.00 on the improvement of this road.

Re Yonker road, it was resolved that the sum of \$20.00 be forwarded to the secretary of the Hillsdale municipality towards the cost of the upkeep of the Yonker road. Councillor Williams pointing out that a considerable number of residents in Manitou Lake R.M. were in the habit of using this road.

Mr. W. R. Graham, a taxpayer in division 5 attended with reference to the cutting of the wire fence around section 23-45-27-3 leased by himself and stated that he was willing to put in gates for the convenience of the public on condition that the council would be responsible for any loss or damage caused through persons leaving said gates open and stock escaping; he would also require a yearly rental of \$30.00 for the use of this road. This question was immediately put to the meeting with the result that the motion to pay a rental of \$30.00 was defeated. Council considered that sum excessive. Mr. Graham thereupon intimated that unless the council agreed to pay compensation for the use of this road at the sum named and would assume responsibility for any loss he was put through stock escaping from the pasture, he would consider any persons using the

road as trespassers and take action accordingly, as he had moved his fence back on the north of the section so as to allow of a passable road. The council being of the opinion that the road allowance was not passable at the present time, decided to maintain a temporary road through this section until such time as the roadway could be made passable, and it was resolved on the motion of Councillor J. W. Coe, to write the council's legal advisers, instructing them in the event of Mr. Graham closing up this temporary road, to commence action against

Mr. Graham for obstructing the roadway as authorized by council, all attempts at coming to an agreement on this matter having failed.

In connection with the improvement of the road between townships 44 and 45 westward from the municipal hall to the 4th meridian it was resolved that the reeve and Councillors Mitchell and Coe constitute a committee to go over the road and report on the work required.

The meeting closed with the passing of a number of accounts for payment. 0mit7R.i il etain

While securing the highest class of investment procurable you at the same
time aid your Province to provide for the building of its Public Works and
Telephones in the most effective way.

Financing by the issue of bonds within the Province results in the distribu-
tion of the Interest amongst our own people.

If you encourage this idea, you help you help your Province to become less
dependent on outside money markets.

Interest is payable half-yearly: 1st of May and 1st of November; by coupon
Bonds are in denominations of \$100, \$500 and \$1000

Remittances should be made by marked cheque, money order or postal order.

These Bonds may also be obtained from any recognized bond house in the Province of Alberta

Our Weekly Sermon

NOT ASHAMED OF THE GOSPEL

Rom1:16, I am not ashamed of the
gospel for it is the power of God unto
salvation to every one that believeth
The church in Rome was fluded by
some one a few years before Paul
wrote this letter. Paul longed to visit
this congregation that he might es-
tablish it, and impart unto it some
spiritual gift. Again and again he was
hindered; so he wrote a letter instead
He knew that Rome was a strategic
point to have a strong congregation
in. The key of the epistle is, The
Gospel of Christ is the power of God
to all believers.

First, what is the Gospel? Paul tells
us in I Cor. 15 what he understands

by the Gospel. He gives us the facts
of the death and resurrection of Christ
The Gospel is not a declaration of
principles; nor is it a code of laws.
but a record of facts. A fact is of
no significance without the explana-
tion of it. What makes the fact if
Christ's death a Gospel, is that He is
the Son of God, and died to save us
from sin. We cannot understand the
death of Jesus unless the atoning
nature of His sacrifice is admitted.

All the New Testament writers
agree with this view. The Gospel be-
comes the presence of Christ in the
soul. It is God's free gift of salva-
tion. All other messages to men say
"Do this and live." The universal her-
esy is that men can earn their sal-
vation, pay for it, or do something

IT PAYS TO ADVERTISE

to mert t.

Paul might have been ashamed of
the Gospel, just as some are to-day.
It was so insignificant. A Roman
would scorn to notice it. It was only
an offshoot of a detested religion. Paul
knew it would be unpopular, for it
taught many things the world would
not accept. The cross was an offence
to Romans and foolishness to the
Greek. The followers of Jesus were
regarded as heretics by the Jews.

Paul was not ashamed of the Gos-
pel because it is the power of God
unto salvation to everyone that be-
lieves. Invisible as heat, electricity,
or gravitation, it does its work in the
hearts and consciences of men. A
Japanese student said, "I accept
Christianity because it is a religion of
power. The more I studied Confucius
and Buddha the less peace I had, be-
cause I had no power to carry out
their teachng. In Christ I find power
to save men from sin.

The first element in the Gospel is
the love of God. the second is the
righteousness of God, which He be-
stows on every one who believes on
His Son. We cannot earn or pay for
salvation; we accept it. The gospel
saves from the bondage of sin.

The gospel requires only one con-
dition for the exertin of its power—
it must be believed. The jailor believ-
ed the words of Paul, and was saved.
It is a broad and a narrow gospel. It
is broad for it is for every one who
believes; so all the world might be
included. But it is narrow also—
It is only to those who believe. It is
the power of God, but it cannot save
apart from our moral consciousness,
our repentance, our consent.

(Continued from front page)

when unhorsed. The first pull was
ruled out because some men down
continued pulling. A second pull was
then made, this was disallowed, there
having been some interference by
the enthusiastic crowds. A third
pull was then staged and the victory
gained by the veterans. At the con-
clusion of the final we noted that
Ray Reynolds and Joe Reinhart (vets)
and W. Dundas and L. Smith (civs)
were still on horse. The first pull
was in favor of the civilians and the
other two in favor of the veterans.

Tilting the bucket provided lots of
fun for spectators and contestants, in
tn this contest a man pushed a wheel-
barrow, in which was riding another
man who had to pass a stick through

a hole as he rode by, at the risk of
upsetting a pail of water upon them-
selves. A number of entries were
made and much water split, though
to the disappointmene if the specta-
tors the contestants were successful
in dodging the deluge, and finally the
prize fell to Keatley and Gibbs. Dun-
das and Pahner, and Devignon and
Page also doing good wrok.

The wild boar hunt for boys and
girls under 14 consisted of the capture
of a well greased pig which was lib-
erated on the baseball diamond. The
pig put up a good run and left much of
his grease with his ardent pursuers,
Johnnie Cargill ultimately becoming
owner of the pig.

A goodly number of entries were
made in the trap shooting contest.
G. W. Allan winning the 1st prize
Jeff Swan the second

It was late before the baseball got
started. The first game, being Airlie
vs. Chauvin. This was Airlie's game
until the close of the fourth innings
after which Chauvin had the game in
hand. Airlie however was creeping up
the score towards the end but re-
mained two short of the essential to
victory. The score being:—

Chauvin . . 3 0 3 0 4 6 2—18
Airlie . . 6 0 1 1 0 6 3—17

Veterans vs Chauvin was the next
game, but as it was nearing sunset
when the game commenced it became
necessary to call the game at the end
of the fourth innings, which was
played in the fading twilight. While
the light remained remained the two
teams tied on each innings. The
score being

Veerans . . 0 1 2 2—5
Chauvin . . 0 1 2 10—13

The members of the G.W.V.A. serv-
ed at the booth, where in addition to
the regular line of ice creams and
soft drinks, etc, tea and coffee, sand-
wiches, cake and pie was served at
moderate figures. The rest room
also proved a great convenience to
ladies and children.

The quilt, a donation by Mrs Her-
bert, was won by ticket no. 220.

The shot gun, donated by T. H.
Saul, was won by A. Spence.

The dance in the I.O.F. hall was at-
tended by a large and happy throng
who continued dancing until early in
the morning to the strains of the Ed-
gerton orchestra, who received many
claps and much applause for the mu-
sic

"Good roads are wanted because
bad roads and mud holes help to
make living high. They make it
costlier to bring food products to
market and the higher cost is paid by
the consumer," says a city newspaper.
Maybe it is correct, but after living

in this district fourteen years, we
entertained the idea, that we paid for
the lack of road and that we must
also pay for our roads. It is really
hard for us to perceive how our friend
consumer pays.

Conserving Moisture

From the standpoint of crop production there are two types of farming in vogue in Central Alberta, dry farming in the districts where the rainfall is insufficient for all crop requirements and farming under a system where no particular attention is given to the conservation of moisture. In the dry areas where the rainfall is limited, it has been the experience of hundreds of farmers that summer-fallowing at regular intervals is essential in order to obtain the best results.

The benefits of summerfallowing

are many. The principal advantages derived are first, a plentiful supply of available plant food and moisture which under ordinary conditions insure a good crop of grain the following year, and second the destruction of a large number of weeds. The methods of obtaining these results as the experience of farmers in widely separated districts, and the results of experimental stations show, vary considerably. Methods that have proved quite successful in one district have given but poor results in others. This has been found to be due largely to the difference in the soils. In a given district the soil may be light and susceptible to blowing, while in another an entirely different factor may be the chief factor for consideration. Most farmers agree, however, that in Central Alberta in those districts where summerfallowing is necessary, the land should be plowed some time

between June 1st and June 20th, depending upon the conditions; and at a depth of from six to seven inches. Generally speaking six inches is known as summerfallow depth. The cultivation after plowing to keep down the weeds, however, varies considerably.

Plowing for summerfallow at depths of four, six, and eight inches have shown that a depth of about six inches is the most satisfactory for general conditions. The effects of fairly deep plowing have shown on the following years crop of wheat and on the second years crop of oats. Plowing for summerfallow in early June, cultivating until September, and re-plowing has given smaller yields than single plowing and thorough cultivation throughout the season. The growth of hay on the plots which were plowed twice has been much ranker and more inclined to lodge than when only one plowing was practiced. Sowing a crop of rape on summer fallow land which is pastured and disced thoroughly before seeding the next spring has reduced the yields of wheat 13 bushels per acre less than a similar plot ploughed once at the same depth and kept cultivated the remainder of the season. The value of the pasture taken from this land is not nearly sufficient to effect the loss in the yield of crops during the succeeding seasons.

Land for summerfallow has been ploughed on May 15th, June 15th, and July 15th. with distinctly better results, both as to crop and weed control, by ploughing either in May or June. July ploughing is decidedly too late for successful summerfallow treatment. By skim ploughing or double discing the land immediately after the crop is removed weeds seeds are germinated, moisture is held in the ground, and the crops of grain following the summerfallow treatment are materially heavier than where no fall cultivation is given.

The value of fall cultivation in controlling weeds cannot be estimated in dollars and cents. But is a factor which is not to be overlooked, since summerfallowing if done at all should be done thoroughly. It has been found advisable to use the packer on the land as soon as possible after ploughing since this firms the soil and prevents undue loss of moisture. If the soil is found to be exceptionally loose at any time the packer can again be used in firming it down. The duck foot cultivator is decidedly the most satisfactory implement to use on the summerfallow field. By using wide teeth on them the weeds are cut and the soil left in a somewhat lumpy condition which prevents soil drifting. The drag harrow can be used when necessary with good results. The disc should not be used in summerfallow unless absolutely necessary to pulverize the soil. Particularly late in the season it is not advisable to use the disc harrow, since the soil is opened and loosened to such an extent that a great loss of moisture takes place.

In short then, the essentials of proper summerfallow treatment are late fall cultivation to conserve moisture and start weed growth, ploughing to a depth of at least six inches early in June making sure that all the weeds are covered, firm the land with a packer, and keep it black throughout the remainder of the season by using the duck-foot cultivator and drag harrow.

Not A Calamity

There are many folks, who are worrying a good deal just now, for fear that the present tightness in money will cause a collapse in real estate values and the country will receive a great setback thereby.

Worse fates could overtake us. The fundamental industry in this country is farming, and agriculture is not dependent upon high level land values. In fact, the business of profitable farming, is seriously handicapped when land values soar too far upward. If the price of land were to stop advancing now, it would not affect the land one iota. Neither would it lessen its productiveness nor spoil the

prices for farm products. The land would still be in the hands of the people, just as it is now; only the mere appraisal would be affected. But there would be one or two other results. One of these would be that the thousands of men now engaged in the altogether unproductive task of juggling prices, making a fat living from land commissions, while performing no necessary productive labour, would be forced to put their hands to some useful task and earn their living by performing some really needed labor. The cost of living in Canada is very high—too high for most honest hard-working people who get only what they earn by the sweat of their faces. This high cost of living cannot help but be related to the upkeep of those who do not produce. It is a fundamental truth that when one man gets something for which he does not work, another man somewhere always works for something he does not get. There has been a great deal of that sort of thing in Western Canada of late years, and the sooner it comes to an end and the signs are pulled down from three-quarters of the real estate office doors, letting the occupants take up some really necessary work, the better.

SWAT THE FLY

Flies breed in filth, feed upon filth and carry disease. Flies may carry upon body and legs the germs of typhoid fever, tuberculosis, pneumonia and many other diseases.

Flies crawl over garbage, wade through sewage and filth and go swimming in the gutter. These same flies the next hour crawl over your cake, wade through your soup and take a bath in your milk; you eat and drink the dirt and germs that these impudent pests wash from their dirty feet.

A fly in the home is as much to be feared as a rattlesnake; the rattlesnake gives warning; the fly does his deadly work quietly.

Windows should be screened so that flies cannot enter the home and sow the seeds of disease and death.

Flies are enemies of babyhood and we should kill flies in order to help conserve human lives.

Premises should be kept clean so that flies will not find breeding places.

SIMULTANEOUS VOTE

Voting on the prohibition question in Alberta and Saskatchewan will be held on October 25, while the dates for Ontario, Manitoba, Nova Scotia and the Yukon, all of which have asked for the plebiscite, have not yet been determined.

The government desires to have the referendum held in all the provinces on the same date in order to simplify the necessary work in connection therewith. The prohibition forces look on the matter differently, being desirous of having the vote taken on different dates. They feel that in this way a more favorable result would be

obtained for their cause as a favorable decision in one province would react favorably on others.

The probability is, however, that with the exception of the Yukon, the votes will be taken simultaneously.

LADIES
COLUMN

To take gease out of leather, apply white of eggs to the spot, and dry it in the sun. Repeat the application until all marks have disappeared.

An idea for pudding-basin cloths is to cut a round of material, hem the edges, and run a piece of string through. Then the cloth need only be placed over the basin and the string drawn and tied as tightly under the rim as possible.

Cakes should not be left to cool in the tins in which they were baked, neither should they be placed flat on a solid surface to cool. Take them out of the tins and put them on a sieve, or tilt them up so that the steam can escape.

Mildew is an obstinate discoloration but will yield if rubbed with lemon juice followed by salt, and exposure to the sun. For mildew on other material than linen a mixture consisting of two tablespoonfuls of turpentine blended with the juice of a lemon, is recommended.

Clothes that have been packed away for any length of time often become very creased and shabby looking. To remove the creases, hang the articles in a clothesline in the bathroom and turn on the hot water tap until the room is full of steam. Leave them for an hour or two and then dry again in the open air and press on the wrong side with a rather cool iron.

Wet boots and shoes should never be placed near a fire as this renders the leather hard and brittle. After removing them from the feet wipe with a soft cloth to remove any surface water. Then place on trees and while still wet rub with a little kerosene oil. Put them in a warm place and allow to become partially dry, then give another rubbing with oil. Afterwards polish in the usual way.

Spirits of turpentine will remove most spots from silk, but care must be taken to see that the dye is fast. It is as well to experiment first on a spare piece of the fabric. Failing this, powdered French chalk, mixed to a mustard like consistency with lavender water, should be rubbed into the stain left till caked, and a hot iron—laid on a sheet of blotting paper—finally passed over lightly.

Old newspapers are invaluable in the kitchen. Spread one on the table when about to do anything that will make a litter. When finished wrap the paper up tightly with the contents and place in the fire or the rubbish box.

FARM IMPLEMENTS OF ALL KINDS
& PROMPT REPAIR SERVICE

We are able to supply your needs in Massey Harris, International Farm Machinery, also in Engines from the smallest pump engine to the powerful Mogul and Titan Engines. If you need any threshing machinery this fall let us give you full particulars of the J. Case line of separators and engines.

In the matter of repairs we can give you good service from Blacksmithing all the way up to overhauling your car or tractor.

AGRICULTURAL SOCIETY**Public Notice**

PUBLIC NOTICE is hereby given that owing to the scarcity of labor, and to the severity of flies, the enforcement or non-enforcement of rule 16, at the Chauvin Fair, Friday August 13th will be left to the discretion of the directors in charge.

Rule 16 reads as follows: Prize winning horses and cattle shall be paraded at four o'clock, wearing their respective colors. Prizes will not be paid unless prize winning horses and cattle are so paraded.

P. H. PERRY, Sec-Treas.

Edinglassie Notes

We are surely having very warm weather. The crops are looking splendid but a good heavy rain is needed.

Miss M. Trainor and Miss L. MacDonald, teachers of Roros and Northern Crown schools, respectively, spent the week end here with their friend, Miss L. Brent.

Practically all the residents of this district attended the annual sports at Chauvin on July 7th. The weather was ideal and all report a good time.

Mr. David Hood who attended the Calgary exhibition has returned home again.

Mrs. W. D. Brent, who has been in Edmonton came back again.

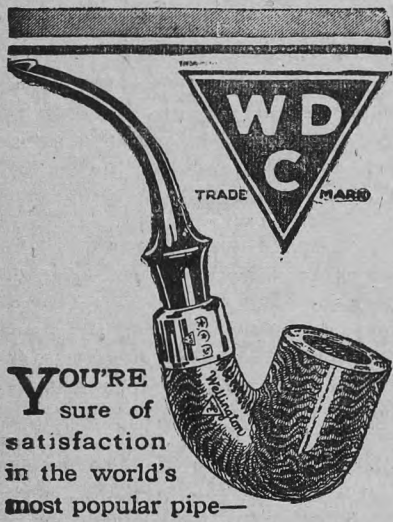

On Monday evening, July 5th., we were visited here by Mr. H. A. Barton who addressed us on the prohibition referendum and also delivered some excellent readings. An executive was formed for the aid and preparation of

of the coming election to be held on October 25th. The following are the list of officers: President Andrew Petrie; vice-president, Miss L. Brent; secretary Mrs. H. Bingham; treasurer, M. H. Bingham; committee, Messrs. H. Witt, S. Cunningham, N. Windrum, and W. Reinhart.

Any who wish to secure literature to help them in securing votes for the victory of this very important campaign can secure same from the secretary or any member of this committee. All our combined aids are needed to make this an overwhelming victory.

Moved by C. M. Kirby and J. Tooth that the president see that S.Jean Baptiste Society replace all materials used by them.

Moved Mr Pitman and Tooth that we accept Mr Lang's offer of pump jack and belt and that Mr Lang be a committee to arrange with Mr Code re engine. Carried

Stock parade: Moved G. Lasell and

G. Tessier that owing to the scarcity of labor and the severity of flies that rule 16 be not compulsory but left to the discretion of the directors in charge. Carried

Increased Facilities

The Canadian National Railways and Grand Trunk Pacific announce improved passenger facilities of these two systems, whereby passengers these lines may have the privilege of using optional routes between Winn-

ipeg, Regina, Saskatoon, and Edmonton. These arrangements are reciprocal inasmuch as passengers leaving Winnipeg holding tickets over the Grand Trunk Pacific destined to Regina, Saskatoon, Edmonton or beyond may have their tickets honored on Canadian National trains, or vice-versa, for all or a portion of the route via junctional points.

Additional facilities are also being provided in the way of standard and tourist sleeping cars to meet changed conditions.

THE RAISING OF SHEEP.

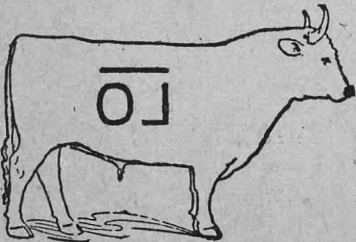

In introducing the estimates for his department to the house of commons the Hon. Dr. Tolmie, Dominion minister of agriculture pointed to the fact that in Australia there are no fewer than 80,000,000 sheep, in the United States 40,000,000, in Great Britain 27,000,000, and in Canada only 3,500,000. As shown in The Agricultural Gazette of Canada for May efforts are being made in all the provinces to remedy this state of things. That is to say encouragement is being given to the raising of sheep in a variety of ways—

by pure-bred rams being distributed or sold on easy terms by the holding of competitions at which generous prizes are given for the best ewes and for the best flocks by obtaining the highest price for wool through the departments and through the Canadian Co-operative Wool Growers' Association, by organized sheep sales and as in Ontario in particular, by placing flocks on a share basis. Amended legislation has also been passed for the protection of sheep from dogs. As a sample of the good work that is being performed it might be mentioned that in Saskatchewan in the last four years the amount of wool consigned to the co-operative branch of the provincial department of agriculture increased from 179 consignments, weighing 69,404 pounds, for which the average price realized was 17 3-4 cents to 916 consignments weighing 394,068 pounds, at an average price of 61 1-2 cents per pound. The articles in The Gazette would imply that what has been done in Saskatchewan is also being accomplished in the other provinces of the Dominion.

HOW TO CHECK CUT WORMS IN HOME GARDENS

The more succulent vegetables if the vegetable garden rarely escape the attacks of the dreaded cutworms, therefore stringent and intelligent methods of control must be exercised. Usually the cutworms (caterpillars) work at night, and the kinds usually found in vegetable gardens eat through the stems of plants near the ground or just below the surface, and do great and at times almost incalculable damage. The greatest injury is caused to seedlings in May and June and to plants which may be set out at this time.

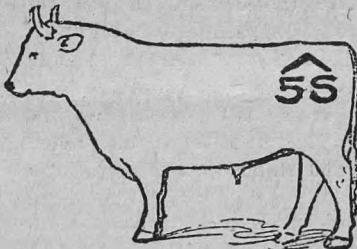

As cutworms are voracious feeders it is an easy matter to poison them by simply placing poisoned substances along the rows. This is better than to spray the plants, as it is difficult to reach the points attacked, and so the material and labor would be wasted. Bran, rolled oats, middlings and similar substances will attract the cutworms, and if a little molasses and Paris green or powdered arsenate of

lead are mixed with these, and the mixture is placed near the plants in the evening a large number of caterpillars will be killed, if they are at all numerous on the plot. When poultry or domestic animals are allowed to stray, the poison should be covered or be removed early each morning.

The constant use of the hoe or rake among the plants will tend to expose many cutworms, and if the weeds are kept down, and the plot maintained in a clean condition, the attack is not likely to be serious.

TO KILL THE WILD MILLET OR FOXTAIL

The name wild millet is frequently given to plants that are known also as green foxtail and yellow foxtail. It is a very persistent weed which seeds profusely from harvest to late autumn. The plant is usually from one to four feet tall, though when started late and pressed for time, foxtail matures seed when no more than three inches high. It prefers a somewhat loose, warm, sandy soil, but is sometimes found even in clay loam. This weed seldom gives much trouble in a heavy rank crop, but it grows freely in a drought. A badly neglected crop of corn or field ruts is favorable to its growth.

The most suitable method for the eradication of foxtail or wild millet is to double disc or skim plow the stubble as soon as possible after harvest, thus preventing the late blossoming plants from seeding. The following summer the weeds must be allowed to grow until a few inches high, then destroyed by shallow plowing or by the use of wide toothed cultivator. All through the summer the weed seeds should be encouraged to grow as often as possible, then destroyed by the wide toothed cultivator when only a few inches high. Great care must be taken that none of the weeds ripen during the summer. This green summer-fallowing will destroy not only the weeds that may grow on the land.

Roros U. F. A.

Roros Local U.F.A. will hold a picnic on July 28th at the beaver dam Roros School house. Full program of sports is being arranged. Dance in Roros School house in the on the Ribstone creek one mile from evening. Every one invited.

Two British soldiers went into a restaurant at Salonika and asked for Turkey with Geece. The waiter said "I'm sorry, gentlemen, but I can't Serbia" whereupon the Tommies cried, "Fetch the Bosphoruse." When that gentlemen arrived and heard the complaint, the manager said: "Well, gentlemen, I don't want to Russia, but you cannot Roumania." And so the poor Tommies had to go away Hungary.

SMALL ADS—THE LOCAL MARI

THE MUNICIPAL DISTRICT OF
RIBSTONE, NO 421

Destruction Of
Noxious Weeds

SPECIAL NOTICE

Will Resident Owners of lands
within this Municipal District please
report all cases of noxious weeds to
the Municipal Office; so that the at-
tention of the Weed Inspector for the
locality concerned may be directed to
same.

Rumours are heard as to "weeds or
mustard on such and such a farm;"
but no one seems to think it worth
while to report the fact to the pro-
per quarter. Only four reports hav-
been entered during the season so
far. All reports should be made to
the Secretary, who will forward same
to the Councillor for the district af-
fected. After inspection has been
made, the notice is sent out to the
owner of the land where the weeds
are found.

signed: **T. H. SAUL, Sec.-Treas**

VILLAGE OF CHAUVIN

Sale Of Lands

IN THE VILLAGE OF CHAUVIN
For Arrears Of Taxes

NOTICE IS HEREBY GIVEN that
certain lands in the Village of Chau-
vin will be offered for sale for arrears
of taxes and costs.

The list will be posted in the Chau-
vin Chronicle, issued August 4th 1920
The list of lands will include all
arrears of taxes up to December 31st
1919 with penalties up to July 1st
1920.

The village will accept arrears of
taxes up to the time the list is posted
Dated at Chauvin, this 20th day of
July 1920

H. N. FREEMAN, Sec-Treas.

MUNICIPAL DISTRICT OF
RIBSTONE, NO. 421.

Tax Recovery Act
TAX SALE

SALE OF LANDS IN THE MUNI-
CIPAL DISTRICT OF RIBSTONE
No. 412

NOTICE IS HEREBY GIVEN that
certain lands in the Municipal District
of Ribstone, No. 421 will be offered
for sale under the provisions of the
Tax Recovery Act for arrears of
taxes and costs on a day and date to
be fixed at the next meeting of the
Council.

THE LIST OF LANDS IS NOW
IN COURSE OF PREPARATION,
and said list will include all lands in
arrears of taxes up to December 31st
1919.

Said list will include all penalties
up to July 1st 1920.

LANDS in respect of which arrears
are paid on or before the list is post-
ed will be struck out; after which a
certificate will be given. It is pro-
vided by the Act that it shall not be
necessary for the collector to ascer-
tain whether there are any goods up-
on said lands which might be dis-
trained upon before proceeding to
sell such lands.

Dated at Chauvin this 30th day of
June A.D. 1920.

Recent Alberta
Legislation

10.—AN ACT TO AMEND THE SUP-
PLEMENTARY REVENUE ACT.

The tax for 1920 in cities, towns
and villages shall be one mill on the
dollar of the assessed value of rate-
able land, and in municipal districts
and improvement districts 4 cent per
acre, or such reduced rate as has
been fixed by the tax commissioner.
The holders of grazing leases shall
pay a tax of one cent per acre.

In 1921 and annually thereafter the
tax shall be two mills on the dollar
of the equalized assessed value of
all rateable lands in the Province,
subject to a minimum tax of ten cents
where the tax or any fractional lot or
quarter section would fall below that
amount. Holders of grazing leases
will continue to be taxed one cent
per acre.

For the purposes of this Act the
assessor in every city town,, village,
Municipal district and improvement
district must assess in 1920 by valua-
tion, and forward to the Department
of Municipal Affairs a statement
showing the total assessed value of
the land in every such municipality.

A board of not less than three nor
more than five persons, to be called
the Assessment Equalization Board,
appointed by the Lieutenant Govern-
or in Council, shall determine the to-
tal equalized assessed value of all
rateable lands of each and every mu-
nicipal unit in the Province. The
Board shall make its first report to the
Minister of Municipal Affairs not later
than the 10th day of January, 1921,
and the said report shall contain a
schedule showing the total equalized
assessed value for the purposes of
this Act of every municipal unit in
the Province. A subsequent report
shall be made by the Board on or be-
fore the 10th day of January, 1926,
and every fifth year thereafter.

On receipt of the report of the
Board, the Minister will advise the
secretary of each municipal unit of the
amount of the equalized assessment
of such municipality, and the said
amount if confirmed by the Board,
shall be the local assessed value of
said municipality for the current year
and for each year thereafter until the
next equalized assessment is reported
by the Board; provided that where
there is an increased local assessment
in any year in any rural unit, caused
by more land coming under the assess-
ed value of such land as fixed by the
assessor shall, until the next equal-
ized assessment by the Board, be add-
ed to the total equalized assessment
of such unit as last fixed by the
Board; and shall be taxed at said
rate; provided always that where the
total assessment of any city, town or
village as fixed by the assessment
officer exceeds the total equalized as-
sessment as fixed by the Board to such
an extent as in the opinion of the
Council to make the acceptance of
such equalized assessment impractic-
able for municipal purposes, the as-
sessor or secretary-treasurer or other
tax-collecting officer as the case may
be shall strike a rate of taxation on
the amount of assessment as fixed
by him that shall yield under this Act
at the rate of two mills on the dollar
upon the total equalized assessment
as fixed by the Board.

Lands forfeited to the Crown under
The Educational Tax Act, and The
Wild Lands Tax Act shall, until re-
sold be exempted from taxes under
this Act.

9.—AN ACT TO AMEND THE MU-
NICIPAL HAIL INSURANCE ACT.

The Act shall not apply to land that
has been subdivided into blocks and
lots and plans registered. The ques-
tion as to whether a municipal dis-
trict shall be brought under the Act
shall be decided by a majority of the
electors actually voting. Power is
given to a district not in a hail insur-
ance district to levy and collect the
rates for insurance from owners and
occupants whose applications for in-

surance have been accepted by the
board.

In making a crop report return, in-
stead of having the indemnity \$8.00
per acre, subject on request to reduc-
tion to \$6.00, the owner or occupant
is now required to state the amount
of insurance per acre he desires, and
Section 29, fixing the indemnity, has
been repealed and the following sub-
stituted:

"The maximum indemnity to be
paid for total loss shall be six, eight
or ten dollars per acre as shown on
the return made under Section 24
clause (d) of this Act; provided, how-
ever, that if no such return has been
made until after the insured crop has
been damaged by hail, the maximum
indemnity for total loss shall be six
dollars per acre.

"(2) No liability as to indemnity
shall exist—

"(a) With references to any portion
of an insured acreage in which
the damage done by hail in such
portion is less than 5 per cent.
of the actual value of the crop
on such portion:

"(b) Where the damage by hail has
taken place after the crop has
been cut.

"(3) The indemnity herein provided
for shall be exempt from garnish-
ment, attachment and execution.

11.—AN ACT TO AMEND THE
WILD LANDS TAX ACT.

Ballast pits, lands used exclusively
for mining purposes, and lands for-
feited to the Province, until sold, are
exempt from taxes under this Act.

Notice of adjudication may be sent
out instead of a copy as formerly, and
the provisions requiring the Minister,
after the expiration of ten months and
before the expiration of eleven months
from the date of adjudication, to pub-
lish in the Gazette and in a newspa-
per a notice by registered mail to
each person who appears by the re-
cords of the Land Titles Office to
have any interest in the land has been
repealed.

The Minister is given power to sell
forfeited lands by public auction,
much the same as school lands are
sold.

WHEN BARKER BARKED

Sergeant Barker was in a bad tem-
per and the recruits under instruc-
tion were having a hard time of it.

The squad had to "bout turn" so
many times in a few seconds that it
was no wonder the poor fellow got
dizzy, and Smudger Smiff finished up
by turning about the wrong way.

Sergeant Barker got in a towering
rage, and, striding up to Smudger
roared:

"Where the dickens do you think
you are? On parade or what?"

"Well, sergeant," replied Smudger,
meekly, "I began to think I was at a
fancy dress ball dressed up as a
bloomin' leg o' mutton and twisting
round and round on a meat jack."

A man who owned a tortoise allowed
it to crawl about the kitchen. Then
one day he changed his servant.

Not having seen the tortoise about
for a few days, the man began to
make enquiries of the maid, who said
that she had never seen it. Taking a
candle she searched everywhere, and
at last looked in the coal cellar, where
he found the tortoise.

The astonished girl looked at the

OUR SMALL ADS. REACH HOME

creature and cried.

"Is that what you call a tortoise?"
"Why I've been breaking coals on it
for nearly a fortnight!"

* * *

Young Arthur, the pride of the fam-
ily, had been attending school all of
six weeks, and his devoted parent
thought it was high time he should
find out how things were running.
So he asked one afternoon.

"And what did my little son learn
about this morning?"

"Oh, a mouse. Miss Wilcox told us
all about mouses."

"That's the boy! Now, how do you
spell mouse?"

It was then that Arthur gave prom-
ise of being an artful dodger. He
paused meditatively for a moment,
then said,

"Father, I guess I was wrong. It
wasnt a mouse teacher was telling
us about. It was a rat.
